Open/A Version 5.576.0000

Handle UPDATE statement without 'WHERE' clause

Allow option "RO" or "RW" at end of "ADD TABLE" administrator batch command

Fix SEGARRAY error at 4120180 in ENVIRONMENT library caused by calls when there were no tables in the configuration file

Add support for DMSII 57.1

Add support for new DMSII datatypes DATE, TIME and TIMESTAMP

Add DSLIBDISPLAYSTACKNO and DBLIBDISPLAYSTACKNO options for OPENA/CONFIG file. These will allow DISPLAY's to be generated into the DB and DSLIBS to show the library and connection stack numbers

Add a MAKEOBJ2 object which is used when updating the MAKEOBJ code file
